Observations of Analysis

K. Nirmala

DIRECTOR
D. Y. Patil Institute of Master of Computer Applications and Management
Akurdi, Pune-411 044

Through Alumni feedback analysis it is observed that the syllabus of MCA programme does not meet requirements of Industry Needs. This indicates that there is some gap in skills imparted through curriculum and skills which are actually required on job. The gap must be filled in through appropriate measures. It may require further significant inputs from major Employers. It was also observed that Alumni were not satisfied with the Guest Lectures, Workshop & seminar etc.

Average					3.4944	

Interpretations-

The employers rated the graduates with High performance in terms of their competence using the curriculum They gave the MBA graduates better opportunities and greater responsibilities to handle management roles in the organization and participate in the decision making process. Employers also believed in the high performance of the MBA graduates when student outcomes of the MBA program were used the measuring tool. Employers assessed the competencies of the MBA Graduates based on the student outcomes of the degree program. Competency profiling traditionally involves the deterministic process of devising a framework of abilities, skills, traits, values and knowledge which directly enhances individual performance in the workplace. As per most of employer's feedback minimum six months or more should be allotted for field works/ Internships/ live projects to gain better understanding of processes and practices.

FACULTY FEEDBACK ANALYSIS

Interpretations-

From above analysis it found faculty are happy about contents of syllabus. Most faculty interested to get more clarification and updating of internal subjects also. Some faculties are of the opinion that industry-based customization or flexibility will enhance. Also, it is advised to add soft skills in two phases as many students need to practice and understand for better employability. Most of facilities are happy about FDP , SDP and all other efforts of motivations and trainings form SPPU, UGC and HRDC and AICTE. Faculty also express grateful thanks to continued motivational support for active research contribution from Institute and various other bodies.

Overall Feedback about Institute	27	3.00	5.00	3.67	0.92
Average				3.82	
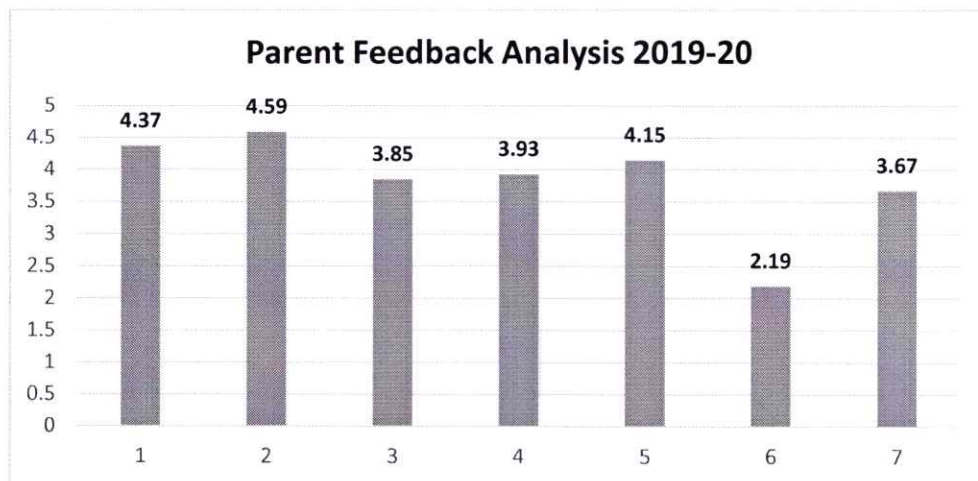

Parent Feedback Analysis 2019-20

Interpretations-From descriptive statistics it is observed that the average of the weighted averages is 3.82. This indicates that almost all respondents (parents) are satisfied with the curriculum and infrastructure and facilities. However it is also observed that weighted average of training and placement facilities is only 2.19. This requires attention.
