**Interpretations-**

Employers happy to share that academic skills of students are excellent. Students found to be average about communication skills and if syllabus like engineering previous syllabus also includes importance towards communication would be great sight. Overthought pandemic situation interpersonal communication of students excellent. They gave the MBA graduates better opportunities and greater responsibilities to handle management roles in the organization and participate in the decision making process. employers assessed the competencies of the MBA Graduates based on the student outcomes of the degree program. Competency profiling traditionally involves the deterministic process of devising a framework of abilities, skills, traits, values and knowledge which directly enhances individual performance in the workplace.

## FACULTY FEEDBACK ANALYSIS

### Interpretations-

From above analysis it is summarized that faculties are happy about syllabus orientation towards industry but want more changes and addition of recent trends. Major faculties agreed that syllabus is clear about objectives and focus and oriented towards student's empowerment. Resources regards to syllabus is good, but accessibility is limited. Overall faculties were of mix opinion about books available as mentioned in syllabus. Faculties were happy about syllabus contribution towards student's employment and happy about FDP efforts and training to faculties provided. Most of facilities are happy about FDP, SDP and all other efforts of motivations and trainings form SPPU, UGC and HRDC and AICTE. Faculties overall happy with contents of syllabus and thank you SPPU for continuous support and motivation.

#### Interpretations-

Overall average is 4.05 suggesting that students are satisfied with the SPPU curriculum of MBA program. However, students are keen to participate in offline trainings. Students are happy about the examinations online mode as they are quick and help them for deep study. Students are happy about certifications available during online teaching and desired more to continue in offline if started. Students are a little disappointed over sports activities and offline emotions are not archived due to pandemic situation.
