Item No 5 -Provide Emotional support to the affected faculty and students through Emotional Fitness Constituted at Campus level

Covid pandemic has tremendously impacted the emotional health of people. Loss of loved ones, loss of means of livelihood, financial challenges, health issues...the list is endless. Many of them suffered from anxiety, depression, mood swings and many other issues. Our faculty members and students also faced many such complex issues causing them extreme emotional turmoil.

To provide emotional support and empathy to our faculty and students, it was suggested that the institute should associate with the **Emotional Fitness Club** of Akurdi campus and work out a plan wherein emotional help could be provided to the concerned faculty members and students to build resilience and ensure their emotional well-being.
